PsychTestR Video Series – Video 4 (Publishing an experiment, and online setup)

Link to video: https://youtu.be/aj2GnUlY_VM

Before watching the video you should also ensure that you have the files that accompany the video:
- R Script for Video 4.R
- id=1&p_id=testuser&save_id=1&pilot=false&complete=true.rds

If you have not have used R before, download the free desktop version of R Studio at the following link, install the program, and run the R Script within R Studio: https://www.rstudio.com/

If you are unable to access Youtube from your location, you can use the alternate link below:
